Over a year ago I decided to start learning programming. From the very beginning, I focused on learning how to create websites. I designed all my project in Figma and wrote them myself. I am still learning, and I can see the distance ahead, but it doesn't discourage me, it just encourages me to gain more knowledge.

WORK HISTORY

09.2021– 11.2022
PRODUCTION OPERATOR YOUNG'S SEAFOOD, GRIMSBY, ENGLAND

I temporarily work here to get knowledge about Front-end developing. By taking a position with less responsibility it has allowed me to have more time to study.

01.2019– 05.2021
PRODUCTION OPERATOR, TEAM LEADER SEACHILL LTD, GRIMSBY, ENGLAND

I started as a production operator before progressing into a team leader role. In this role I managed a team and line production, this included setting up machines and setting up a daily production plan based on orders.

07.2017 – 12.2018
VEHICLE MECHANIC, AUTO SERWIS LESZCZYŃSKI, SOSNOWIEC, POLAND

I would diagnose faults in cars, then regenerate or replace car components. Also, I would repair the chassis and car body.

EDUCATION

VEHICLE TECHNICIAN, TECHNICAL SCHOOL NO. 7 NAMED AFTER STANISŁAW MASTALERZ IN KATOWICE

SKILLS

- JavaScript
- CSS
- HTML
- TypeScript
- React
- SCSS
- Figma

- English B1 level
- Adaptable
- Well-organized
- Good team work skills
- Fast learner

PROJECTS

[GITHUB](#), [LIVE SERVER](#)

LONDON SITE

· Site created with HTML, SCSS and JavaScript devices.

· In this project, I focus on UI / UX.

[GITHUB](#), [LIVE SERVER](#)

TODO APP

Site created with React and TailWind.

· In this project, I focused on React functionality.

· Application for creating and editing tasks.

CARDS "WAR" [GITHUB](#), [LIVE SERVER](#)

Website created with React, without any kind of design.

· In this project, I only focused on the mechanical part of the website.

· A simple card game in which two players draw cards. The card with more strength wins the turn, then takes both cards from the table and places them on a separate deck. After all cards have been dealt out, shuffle the winning cards and use them as our deck.
