Over a year ago I decided to start learning programming. From the very beginning, I focused on learning how to create websites. I designed all my project in Figma and wrote them myself. I am still learning, and I can see the distance ahead, but it doesn't discourage me, it just encourages me to gain more knowledge

PROJECTS

TODO APP, LIVE SERVER, GITHUB

Site created with React and TailWind.
· In this project, I focused on React functionality.
· Application for creating and editing tasks.

[COUNTRIES], LIVE SERVER, GITHUB

Project from FrontendMentor.io
· In this project, I focused on React functionality.
· Application for searching countries and details about them.

WORK HISTORY AND EDUCATION

09.2021– 11.2022
PRODUCTION OPERATOR, TEAM LEADER, SEACHILL LTD, GRIMSBY, ENGLAN

I started as a production operator before progressing into a team leader role. In this role I managed a team and line production, this included setting up machines and setting up a daily production plan based on orders.
